

SUPPORTING STRATEGIC UP INITIATIVES THROUGH PHILANTHROPY & ENGAGEMENT

The UP-Family Leadership Council advances educational and career opportunities for students, enhances student life and well-being, and promotes University of Portland's culture of community, tradition and innovation by investing leadership philanthropic support to university priorities.

The Council was created to strengthen connection between families, enhance the student experience and engage parents and families in philanthropic support of the university as leadership donors. These goals are accomplished by families serving as informed ambassadors and liaisons of the university and encouraging parent involvement within the University of Portland community.

YOUR PARTICIPATION MAKES AN IMPACT

Council families make an annual leadership gift of \$5,000 or more and commit to consider other giving opportunities that reflect their philanthropic capacity and areas of personal passion at the University of Portland. Families attend meetings and events with university leaders, and they act as advocates for families and effective ambassadors for the university.

Your personal connection to other Pilot families creates an inclusive environment where all families feel a sense of belonging. PFC families enjoy networking with one another, a group of highly accomplished and inspiring individuals with a common goal to help students flourish.

KNOWLEDGE, ADVOCACY AND SUPPORT
